# MAJESTIC™

PART 1

ALIEN ENCOUNTER

## Navigating in The Majestic: The VR Node Interface

Navigating in Majestic is conducted through remote-controlled probes. These probes, or VR Nodes, allow you to investigate and interact with the Majestic through Virtual Reality feedback. Your expedition shuttle is equipped with four of these VR Nodes. You can switch from node to node by tuning the Node Carrier Signal, achieved by clicking on the desired probe number on the right of the interface.

Piloting the node is as simple as pointing to your destination and clicking. To reverse direction, clicking on the downward arrow, located in the lower right of the interface gives an immediate reverse-view. Because the probe can be piloted forward and backward with equal ease, it is not necessary, therefore, to physically turn the probe around in order to reverse direction.

Each VR Node has three modes of interaction with its environment: a cutting torch, a computer downlink, and an onboard scanner. These modes can be selected by clicking the "T", "L", or "S", respectively, at the upper left of the interface. The Torch can be used to cut through bulkhead or other obstacles in your investigation. The Link will allow your probe to interface with other computer consoles and datapads you encounter. The Scan mode will allow you to get general information on objects as you come across them.

In addition, each probe features a grappling mechanism which allows it to pick up and use equipment you find during your investigation. Such equipment will be displayed as an icon on your interface. Activating the item is as simple as clicking the icon.

You do not have to return a VR Node to your shuttlecraft before you launch another. However, because of crossband interference, only one probe can be piloted in the same area at a time.

The "Options" button is currently inactive, and will support added functionality in future sequels.

To Exit the game, click on the "SYS" button in the upper right corner of the interface to bring up the System Options screen.

The System Options screen also offers a number of configuration options, such as Restore Game, Sound, and the Animations configurations. This last selection allows you to configure your system to play animated sequences at different speeds as your system performance allows.

## System Requirements:

Macintosh 68030 or higher, system 7.1 or later, 8MB RAM (4096K free), 640 x 480, 256 color, CD-ROM drive (doublespeed required).

IBM PC or Compatible Microsoft Windows® 3.1 or Windows® 95 compatible, 486 or higher, minimum 8MB RAM, SVGA display (640 x 480, 256 color), CD-ROM drive (doublespeed required), sound card and speakers required, Microsoft mouse or compatible.

## Installing Majestic:

Macintosh

1. Insert the Majestic CD into the system's CD-ROM drive. Double-click to open the CD folder.

2. Click to open Majestic's extensions folder. Select these files and

copy them into your system's extensions folder. You may have to restart your system to reset with these extensions.

3. Click on Majestic's main program icon to begin!

PC compatible:

1. In Program Manager, choose "FILE" and "RUN." Type "D:\setup" in the dialog box and hit return. Note: replace the letter "D" in this command with the appropriate letter of your CD-ROM drive.

2. Follow the directions in the customized install. It may be necessary for you to restart Windows® to reset with the installed extensions.

3. After installing, double-click on the Majestic program icon to run Majestic!

## Optimizing and Troubleshooting Tips:

1. Majestic is engineered to give good performance on the systems specified. However, you may enhance performance dramatically by copying the main program (about 23 MB) to your hard drive and running it from there. In addition, doing so allows you (on the Mac) to increase the memory partition for Majestic (via Get Info). If you have 16 MB RAM, you can allocate 8 MB to Majestic, which will also increase performance.

2. Note for Macintosh: It is important that you do not have Virtual Memory turned on, as this diminishes performance.

3. Also, please remember that approximately 95% of all troubleshooting issues reported are the result of improperly installed or configured hardware peripherals or system software. If you are encountering technical problems with your sound card, speakers, monitor, CD-ROM drive, or resident system software, please consult your owner's manual for these items specifically.

## When all else fails...call tech support!

If you are still encountering difficulties, our skilled support technicians stand by to assist you in addressing any technical problems you may have with Majestic. However, to enable us to serve you better, our Technical Services Department will need the enclosed Technical Support DataSheet completed before you call. This will streamline our efforts to help get you up and running and back in the game.

Please call our Technical Support Hotline at (602) 460-2685. Technical Support hours are 9 a.m. to 12 noon and 2 p.m. to 5 p.m. Mountain Standard Time.

## Hint sheets may be ordered from the following address:

Piranha Interactive Publishing, Inc. (Attn: Majestic Hints)
4802 E. Ray Road, Suite 23-245
Phoenix, Arizona 85044 U.S.A.

Include a check or money order for two dollars ($2.00 U.S. currency) to cover postage and handling. Do not send cash. Please allow 2-3 weeks for delivery.

PIRANHA LICENSE AGREEMENT - READ THIS AGREEMENT BEFORE USING THE SOFTWARE CONTAINED IN THIS PACKAGE. By using the software contained in this package you agree to be bound by the terms of this license. If you do not agree to the terms of this license, please return the unused software and all packaging and accompanying material, along with your receipt, to your point of purchase for a full refund.

The enclosed computer software (collectively the "Software") and all accompanying material is protected by copyright laws and international treaty provisions and may only be used in accordance with the terms of this license. You are permitted to use the Software on a single computer. You may not copy the Software or the accompanying material. You may, however, permanently transfer (but may not rent or lease) the enclosed original Software and all accompanying material to another person as long as you do not retain any aspect of the Software, including any set up files, or the enclosed material, and provided the recipient agrees to be bound by the terms of this license. You may not decompile, reverse engineer, disassemble or otherwise break the Software into its component parts, nor may you print, download or otherwise transfer any of the images or other material contained therein without the prior written permission of Piranha. The Software may only be used on a network if you have purchased a license for each terminal on the network. If the enclosed software is an upgrade and you already possess one or more prior versions of the enclosed Software, you have a single license which covers all versions of the Software and individual versions of the Software may not be transferred separately.

LIMITED WARRANTY - 90 days - Piranha warrants the disk(s) containing the Software to be free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. All implied warranties are also limited to ninety (90) days from the date of purchase. Some states do not allow limitations on the duration of implied warranties so this limitation may not apply to you. This Limited Warranty is void if the disk malfunction is the result of damage to the disk subsequent to the purchase. This Limited Warranty gives you specific legal rights. You may have other rights which vary from state to state. REMEDIES - Piranha's and Istvan Pely's entire liability and your exclusive remedy shall be the replacement of the defective disk(s) returned to Piranha with a copy of the purchase receipt. NO ADDITIONAL WARRANTIES - Except as explicitly set forth herein, the Software and the accompanying material is provided "as is." Piranha and Istvan Pely disclaim all other warranty's, disclaims all other warranties, express or implied, including warranties of merchantability and fitness for a particular purpose, for either the Software or the accompanying material. NO ADDITIONAL LIABILITY - In no event whatsoever, to the maximum extent permitted by applicable law, shall Piranha or Istvan Pely be liable for any damages, whether incidental, indirect, special or consequential, including, but not limited to, loss of business profits, business interruption or loss of business information, arising from the use of or the inability to use the Software, even if Piranha or Istvan Pely has been advised of the possibility of such damages. Some states do not allow the limitation or exclusion of liability for incidental or consequential damages so this limitation may not apply to you.

Use of the Software and accompanying material by the U.S. Government is subject to Restricted Rights as set forth in DFARS 252.227-7013, subparagraph (c)(1)(ii) of the section entitled Rights in Technical Data and Computer Software or 48 CFR 52.227-19, subparagraphs (c)(1) and (2) of the section entitled Commercial Computer Software - Restricted Rights. This agreement shall be governed by the laws of the State of Arizona.
